Melanie Hannagan (Stage Three)
“What made me easily decide to become a Parent Liaison was the fact that I have had 4 daughters attending this school since July 2007 and I believe there is nothing more important to a parent than the education and well being of their child and by doing so if I truly want my child to be educated in more than the classroom, I need to play an active role in the school community. I love our school and with the partnership of parents in the school community, teachers and the whole school cohort this can only lead to a very successful future in both your child’s education and the school.”
